[TQ:] Hey come here girl, let me squeeze on this right here

[Lady:] What's up, TQ?

[TQ:] You know you like that, bring your ass over here

Thug: Hey break yourself nigger

Oh fuck

Just give him whatever he wants

Shut up bitch (gun cocked)

Oh, look out boo, watch out

(gunshots, glass smashing)

Yo, yo let me up in this mother fucker

(Car door slamming, and tyres squealing)

At night I can't seem to get no sleep

Addicted to indo and Hennessey

I'm stressed homes - got my vest on...

Let's hit the streets it's time to put the west on

Friday night and I'm chillin with my baby in a black

600 Lorenzo's on it

And I'm... All up on them thighs, smokin on doja

So I guess I didn't see them niggas behind me

We at the stop light - Get out your car nigga

Before I exit - they start to pullin triggers

So now I'm duckin and diving try to surviving

All I can hear is gun shots and crying

Then in an instant - the crying stopped

Look at my Benz all my windows bucked out

I see my girlfriend layin on the asphalt bleeding lookin

dead at me

And all I can say is

[Hook]

Bye bye Baby

I can't believe it, these niggas done shot my baby

The only thing that make me go crazy

Somebody gonna feel my 380

My My Baby won't live to see it

It's gonna be murder I guarantee it

You already had it coming boy for stepping 2 me

But ya'll shouldn't have fucked with my baby

Now I met her at the Beverly and she was the bombest

She had me going nigga - I'm gonna be honest
And she was stacked with big bags behind her
Matter of fact - she kinda looked like Tyra
All the niggas use to stop when they seen her
Dressed in black - laid back demeanor
Nigga she gone now - And I'm all upset
I'm like a grown child - I want my baby back
But now it's on pal - All things behind us
I'm gonna take you where no-one can find ya
Mind ya, I'm about to go crazy
Gimme my Baby - Gimme my Baby

[Hook]

Bye bye Baby
I can't believe it, these niggas done shot my baby

The only thing that make me go crazy
Somebody gonna feel my 380
My My Baby won't live to see it
It's gonna be murder I guarantee it
You already had it coming boy for stepping 2 me
But ya'll shouldn't have fucked with my baby

Now I try not to think about it all the things that we did
together
We make the bedroom walls shake from in the living
room
I was so infatuated with everything you do
Somebody took you away from me with a shell or two
And I'm gonna ride, cos that's what the hell I do
Gonna be some madness, Girl I'm tellin you
This shell's 4 you
What they wanna do

[Hook]

Bye bye Baby
I can't believe it (no) these niggas done shot my baby
The only thing that make me go crazy
Somebody gonna feel my 380 (yeah, yeah)
My My Baby won't live to see it
It's gonna be murder I guarantee it
You already had it coming boy for stepping 2 me
But ya'll shouldn't have fucked with my baby
