"Some Take Tequila"

Visit "[Some Take Tequila](#)" on MotoLyrics.com

Some take tequila but it's poison to me
Some like their cider when they herald from the west
country
Some keep it herbal when they want to rest their
eyelids
Others choose to meditate and find themselves in
silence
Love, love, love is a powerful drug
Don't underestimate the oxytocins riding up
Love, love, love is a powerful trip, powerful trip
Can get you high like any other type of chemistry
Some take tequila till it drives their neurons crazy
Others smoke to numb their brains and make their
bodies lazy
Some boost their egos with rolled twenties and white
lines
Others choose to chew their cheeks and come alive at
night time
Love, love, love is a powerful drug

Don't underestimate the oxytocins riding up
Love, love, love is a powerful trip, powerful trip
Can get you high like any other type of chemistry
It's a powerful, it's a powerful, it's a powerful drug
It's a powerful, it's a powerful, it's a powerful drug
'Cos it's a powerful, it's a powerful, it's a powerful drug
Some take tequila but it's poison to me
Some like their cider when they herald from the west
country
Some keep it herbal when they want to rest their
eyelids
Others smoke to numb their brains and leave
themselves in silence
Love, love, love is a powerful drug
Don't underestimate the oxytocins riding up
Love, love, love is a powerful trip, powerful trip
Can get you high like any other type of chemistry
