Running wild with my head in the clouds  
Don't try to hold me down  
Forget all else, be all you can be  
It's a one-time chance, don't throw it away!

Make way!  
I'll ride this wave until it dies on me  
Won't stand still!  
I'm not afraid to fail. I'm going for the kill!  
Make way!  
Got this far, won't start again!

Live your life on the edge  
You will not fall. The world is waiting  
Harness your dreams,  
they will take you far away to a place..

A place where you will feel alive!

I feel the rush and I like what i feel  
I hope it lasts a lifetime  
Let yourself loose  
It's the only way to make the most of your days

Make way!  
Have to see it all while  
I still have the strength to go on  
Won't stand still!  
Distractions in my way will not make me stray!  
Won't stand still!  
Got this far, won't start again!
