Confused again
Your actions make me feel insecure
Make up your mind!
This game of ours is killing me. Killing me!

Don't push me away, don't run away
I won't forget your name
Don't want to give in, I'd die in your name
I'd die in your name

I'm about to break, go completely mad!
Completely mad!
Cannot understand the choices that you make

That you make!

You left your mark on me, you left it deep,
and I can't make it fade away

Don't push me away, don't run away
I won't forget your name
Don't want to give in, I'd die in your name
I'd die in your name

Did I wait too long?
Did I wait too long?
