In the light and in the dark
What we see is what we are

What about peace and love
Coming through from above

When you feel it. That you do
This whole thing's bigger than me and you

When you feel it. Yes you do
Its all here and coming true

We Are One
Gonna give you peace
We Are One
Gonna give you love
We Are One
Gonna give you tenderness
We Are One

When it comes to love
Got to get the job done

Forces of light. Gonna do things right
Don't hesitate. Set the record straight

The time is right to be the light
This is your call. Its time to shine

We Are One
Gonna give you peace
We Are One
Gonna give you love
We Are One
Gonna give you tenderness
We Are One

When it comes to love

We Are One
We Are One

We Are One
We Are One
We Are One
We Are One
We Are One
We Are One

We Are One
Gonna give you peace
We Are One
Gonna give you love
We Are One
Gonna give you tenderness
We Are One

When it comes to love

So listen up. Here's what to do.
Share your love. Think good thoughts too

Go make your peace with everyone
You'll realize that your job is done
