"Key To Love"

I never realized that you were in pain.

I wanna help you honey, let me see you again.

Hurts my soul, babe, when I find you feeling rough.

Life is so bad, baby, when I find the key to love.

Put a smile on your face and dry away your tears.

Life is bound to get better as you live your years.

Hurts my soul, babe, when I find you feeling rough.

Life is so bad, baby, when I find the key to love.

Somewhere in this world, the one you waited for

Come along and find you, turn the key your door.

Hurts my soul, babe, when I find you feeling rough.

Life is so bad, baby, when you find the key to love
