

Lads, The "Freedom"

Visit "[Freedom](#)" on MotoLyrics.com

When I was younger, when I was afraid
Of making my mind up with my head
Of reaching for something that I couldn't get

You made me believe in who I am again
Helped me to leave my past back then
You gave me the words that had been left unsaid

So many words to say, how can I ever pay?
For you to be my freedom, nothing that I can bring
You give me everything, you give to me this freedom

I walked like the rest, did everything they did
But I never felt like I fitted
The puzzle I fit is somewhere else instead

You taught me the reason and how I should deal
With what I was keeping underneath it all
It's life that I'm living ever since we met
