Venus must have heard my plea; she has sent
someone along for me

I have waited a long, long time for somebody to call
mine
And at last he's come along, baby nothing can go
wrong
We meet every night at eight and I don't get home
till late
I say to myself each day, "Baby I long, long live
love"

True love must be the greatest thing
I know now I sing I sing at the moon and stars above
how I long to be in love
We meet every night at eight and I don't get home
till late
I say to myself each day, "Baby I long, long live
love"

Now of one thing I'm more than sure, since love's
come I don't want more than to kiss him every night,
make everything alright
We meet every night at eight and I don't get home
till late
I say to myself each day, "Baby I long, long live
love"

We meet every night at eight and I don't get home
till late
I say to myself each day, "Baby I long, long live
love"

Long, long live love
