Come on baby and check out the rhyme
It's about time, let's climb, let's climb
All the way out to the T.O.P.
Follow me and I'll set you free
Do it right now, not soon
You make my heart go boom boom boom
It's OK, I like it like that
..... with the rap
Give me a kiss on my cheek
That's enough, I'm gonna be a freak
MC, a-ha, you can call me FIXX-IT
You and me in a mix that I mixed
Realize, I love you
Twenty-four-seven I'm thinking of you
Be a man, take you higher. You know why

You set me on fire, on fire
You set me on fire. Set me, set me
You set me on fire, on fire
You set me on fire. Yeah, yeah, yeah, yeah

Ready or not baby you're the one
Five, six, seven, eight, here I come
Find a way and get a little bit closer
Be impressed cause I chose you
Come correct you know
I feel for you, so let's go
You're my one and only desire, baby

Once again, here I am
Wanna take you higher, wanna be your man
Cause to make you mine, let's climb
Free your mind and so yes, it's time
To grab my hand and take a walk with me
Don't let go cause I set you free
You're the one I really admire, yeah
