Fly  
Fly  
Fly  
Fly

I am climbing to the top  
Of the tallest darkest tree  
I need to know where Heaven stops  
What lies beyond the dream

And I am hearing the cries of angels  
They are coming after me  
I am tripping, yeah, I am falling  
And nothing's as it seems

Oh, touch me with your soul  
Bless me with your smile  
Give to me all your love  
And baby watch me fly  
Watch me fly

Oh, touch me with your soul  
Bless me with your smile  
Give to me all your love  
And baby watch me fly  
Watch me fly

I hear your voice in the distance  
You're floating through my mind  
I am scared, yeah, really scared  
But still I close my eyes

And then I'm watching a thousand fires  
Burning in the rain  
And I am tasting my desires  
As they pale and fade away

Oh, touch me with your soul  
Bless me with your smile  
Give to me all your love  
And baby watch me fly  
Watch me fly

I have a memory of this place  
I came here once before  
You gave me shelter for a short while  
You hid me from the storm

Yeah, I gathered flowers along the roadside  
And threw them at the moon  
And I knew just for a moment  
Oh, I could fly with you

Oh, touch me with your soul  
Bless me with your smile  
Give to me all your love  
And baby watch me fly  
Watch me fly

Touch me with your soul  
Bless me with your smile  
Give to me all your love  
And baby watch me fly  
Watch me fly

Touch me with your soul  
Bless me with your smile  
Give to me all your love  
And baby watch me fly  
Watch me fly

Touch me with your soul  
Bless me with your smile  
Give to me all your love  
And baby watch me fly  
Watch me fly
