Don't delay leave today  
get out now while you can.  
Don't be daft leave your half  
to the hard drinking man  
and if they start knocking  
it's just the booze talking  
they've got the Malt and Barley Blues.

Take your chance...

Someone tries to patronise you  
when you don't know why  
but you can stand up and look  
them right between the eyes  
'cos it's just the booze talking  
it's just the booze talking.  
They've got the Malt and Barley Blues.  
They've got the Malt and Barley Blues  
it's just the Blues.

Take your chance while you can  
we're behind you all the way.  
Some are proud some are loud  
they don't heed to what they say  
it's just the booze talking  
it's just the booze talking  
they've got the Malt and Barley Blues
