I've had enough of chasin' rainbows
And dreams that never do come true
I've had enough of broken hearts
But honey, I can't get enough of you

I've had enough of bills and taxes
I can't get ahead, no matter what I do
I've had enough of workin' my whole life away
But honey, I can't get enough of you

By now it should be clear
I've had it up to here with all kinds of stuff
Honey, you know it's true
Baby, when it comes to you, I can't get enough

Ah, fiddles, yes
Play it pretty, boys, play it pretty now

By now it should be clear
I've had it up to here with all kinds of stuff
Honey, you know it's true
Baby, when it comes to you, I can't get enough

I've had enough of politicians
You can't believe a word they say is true
I've had enough of strangers tellin' me how to live
But honey, I can't get enough of you

Yeah, I've had enough of broken hearts
I've had my share
But honey, I can't get enough of you
