I drank too much at the sunday school party  
Badly hung over for my babysitter  
Did I get through it all? did I sleep through it all?  
I smoked too much during my operation  
I lied too much when I stood at the alter  
Did I get through it all? did I sleep through it all?

Years they have passed and now why do you ask  
Am I sleeping through life? am I sleeping away  
everything?

I watched cartoons while you went to the funeral  
Frozen in mid-air like wylie coyote  
Did I get through it all? did I sleep through it all?  
You say ?I love you? so I say ?I'm pregnant  
Let's marry on tuesday before I feel different?  
Did I get through it all? did I sleep through it all?

Years they have passed so now why do you ask  
Am I sleeping through life? am I sleeping through life?  
Am I sleeping away everything?
