I see you runnin' and it's all over now  
The devil's comin' and he's showin' us how  
He's goin' down on the street light  
It's such a cool sight

The lizard king is here and where are you now?  
The monkey brain is here, he's showing us how  
He's goin' down on the cool right  
And I am loosing sight

And every breath is like the one before  
Yeah, it's like the one before  
You get it right, you breathe no more

Sold my shadow on the blackest of nights  
Sometimes it pushed me right out of the light  
It's going down on the cool, right and I am losing  
You're here to tempt me and it's all I can do

To keep from running just to try something new  
I'm goin down on the cool ride  
And I am right behind

And every breath is like the one before  
Yeah, it's like the one before  
You get it right, you breathe no more  
No more, no more, no more

Every breath is like the one before  
Yeah, it's like the one before  
You get it right, you breathe no more

Oh and every breath is like the one before  
Yeah, it's like the one before  
You bank on it, you breathe no more  
No more, no more, no more
