Someone said she's boiling up the children
Silently she sits and dreams
Someone said she's stealing all your true friends
Hold her down so I can see

Say it with sunshine
Beat it down
Beat it down to the ground
Say it all with sunshine
After all maybe it isn't true

Someone said she's burning down the forest
Peacefully she sits and [unverified]
Someone says she's holding up the traffic
Hold her down so I can see

Say it with sunshine
Beat it down
Beat it down to the ground
Say it all with sunshine
After all maybe it isn't true

Say it forever everyone
Someone says she's got a gun
Say a prayer for everyone but me

Say it forever everyone
Someone's always got a gun
Say a prayer for everyone but me
