Super electric sound
(Super electric)
From the underground
(Super electric)
Super electric sounds
(Super electric)
Blasting through your ears

As we break it down to the nitty gritty groove
The bits and the beats an electrical caloo
Yes it is rocking, the loop is old school
It never went away, just check out my moves

We grew up from the sounds, our ghetto blaster was
huge
We're from the underground of the city and the loose
We're the baddest mistakes, you meeting out there is
cool

Bang BS Demon, trying to trash school

All those classic breaks are still used today
DJs spin the wheel go rock a party
Hype it up and wipe it out, stop hold and play
Calling all the rookie freaks to come right this way
