(Greg Johnson/Randy Thomas)

Lately I've been stumbling over my words
When I talk to you I get nervous
And I rehearse how to say hello when you call me on
the phone
When you're over at my house
Watching TV sittin' on the couch
Just hangin' out I catch you staring at me with that silly
grin
Are we just friends or is there something going on
Can you feel it too

Or is it just me feeling this way
Am I the only one that senses
Something going on behind the scenes
Or is it just you the way that you are
That I can't resist and you can't help it
Baby are you falling in love
Or is it just me

Maybe you're just a harmless flirt
And it's safe to rest assured
That it's absurd the way my brain will over analyze
And when my head begins to rush
Everytime I think of us
Looking up I get the feeling that this feeling might be
real
So what's the deal is there something going on
Can you feel it too

Or is it just me feeling this way
Am I the only one that senses
Something going on behind the scenes
Or is it just you the way that you are
That I can't resist and you can't help it
Baby are you falling in love
Or is it just me

Whose pulse is pounding whenever you're near
Is it hot in here

Or is it just me
Or is it just you the way that you are
That I can't resist and you can't help it
Baby are you falling in love
Is it just me (feel like I'm falling in love)
Is it just me (feel like I'm falling)
Is it just me
