Run away, run away, run away and save your life

Run away, run away, run away if you want to survive

It's time to break free, oh oh oh oh, run away, oh oh oh
oh

You better break free, oh oh oh oh, run away, oh oh oh
oh

Money, sex in full control, a generation without soul

Perfect people in a perfect world,

Behind closed doors all in control

Life, in a world of luxury,

Cold cash money mentality

You gotta keep the faith, you gotta keep the faith

You'd better keep the faith and run away

Money, sex in full control, look, big brother is watching
you,

Unlock your brain and save your soul,

No more limits, no more curfew

Life in the perfect system,

Take a stand and fight for freedom

Keep the faith, you gotta keep the faith

You'd better keep the faith and run away
