You can settle down in Mexico
Runaway join a circus show
Whatever, baby it's alright with me

Take a walk in the pouring rain
Sky dive from a jet airplane
Love like ours is all about being free

There's two chairs on the front porch
One's yours and one is mine
Four wheels in the driveway
That'll take us across the line

It doesn't really matter
If you wanna rock or roll
Just take me with you when you go

Swim the ocean for a million pearls
Hitch hike all the way around the world
Fly to the moon in a rocket ship I don't care

Ride a camel cross the desert sand
Sail away to never never land
Imagination can take you anywhere

So be the hero that rides off into the sun
Or a wild raging river always on the run
Change direction like the strong four winds that blow
Just take me with you when you go

Today, tomorrow and forever every turn you make
I want to be there, I want to be there

Live like a gypsy
Chase your distant dreams
Or get lost in the blues on
Bourbon Street down in New Orleans

Believe in Heaven
If you want to save your soul
Just take me with you when you go
Just take me with you when you go
