Almost got what I want
Almost found what I lost
Almost saved you and myself
Almost won but it doesn't count
It never does
Never does

One green light
One more ring of the telephone
One more step
One more second and I almost
Almost

Almost got what I want
Almost found what I lost
Almost saved you and myself
Almost won but it doesn't count
It never does
Never does

One hello
Just one kiss before the tears come
One yes
One chance
and I almost
Almost
Almost
Almost

Almost got what I want
Almost found what I lost
Almost saved you and myself
Almost won but it doesn't count
It never does
Never does

One day, one year
5000 weeks
The life of good works and good deeds
Let me be
Let me be closer

Let me be
Let me be
Let me be

And I almost got what I want
Almost found what I lost
Almost saved you and myself
Almost won but it doesn't count
It never does
Never does

One good guess
A question with an answer that I know
One idea
One grand notion
and I almost
Almost
Almost
Almost

Almost got what I want
Almost found what I lost
Almost saved you and myself
Almost won but it doesn't count
It never does
Never does
