For you, it's all in a day
One day in a life
It's all in the one word, the one word is goodbye
Goodbye

For me, it's all in what you say
You've tried to be kind
It's all in the words from the lips that once touched
mine with a sigh
Goodbye

For you, it's all in your face
The laugh and worry lines
It's all in the word you hope will make you young again
Goodbye

It's all in the play
Someone speaks the line
It's all in the one word
That stops and steals the time

Goodbye
Goodbye
Goodbye

For me, it's all in a day
It's the part in life
It's all in the words to fate and circumstance resigned
Goodbye
