1 - When I'm all alone at night
I can hear the beating of your heart
I should tell you and I might
Before you tear me apart
You're all I ever think about
All I ever dream about
Can you read my mind?
Can you read my mind?

Oh when I look at you
I probably should go
Cause I wanna be with you
More than you'll ever know
Hmm for a taste of you
I could calm my desire
Baby you blow my mind
You light my fire, oh

I want you (yeah)
Need you (yeah)
Can't live without you

Repeat 1

Is it the way I feel?
The curiosity or the things you do
That brings out the lust in me
The thought of me and you, drives me wild
Come close to me
Can you stay awhile?

Hold you, need you
Can't live without you

Repeat 1 (2x)

Yeah
Hold you, need you
Can't live without you

Repeat 1 till end
