Moon needs the suns
Then the earth exists
tall trees will grow
All because of mist
Then there comes light
Which is an awesome gift

Out of my eyes
Visions of you appear

Discovery
The world has yet to see
What you mean to me
Like a treasure unknown
To man
I'm so excited
Where do I begin
Ohhhhhhhh

Notice how birds fly so care free
And picture how they can bring back memories
And then there's the smile that can make someone's
day
When my song was incomplete, you filled the empty
space

Discovery
The world has yet to see
What you mean to me
Like a treasure unknown
To man
I'm so excited
Where do I begin
Ohhhhhhhh

So now that I have seen
An angel spread it's wings
Go on, lay me down
I can die now
And ???
You came around

There's a new love found
I'm not alone
Someone's at home
Yeah

Discovery
The world has yet to see
What you mean to me
Like a treasure unknown
To man
I'm so excited
Where do I begin
Ohhhhhhhh

Discovery
The world has yet to see
What you mean to me
Like a treasure unknown
To man
I'm so excited
Where do I begin
Ohhhhhhhh
(Where do I begin)
Ohhhhhhhh
Where do I begin
