I remember the day that we first met  
We both got caught in the rain and we were soaking  
wet  
I looked in your eyes you gave me a smile  
And told me your name  
You told me about your career  
I told you about my hopes, my dreams, my fears  
We had some laughs, a month has past  
Tonight can't you stay, can you stay?

1 - Now when the time is feeling just right  
Candles burning, turning out the lights  
Anticipate the feeling of your skin  
Shall we begin?  
Just forget with laughing, end the pain  
Until the night turns into day  
Open up your heart and let me in  
Shall we begin?

All the time you got me closer than close  
You're the one I wanna be with the most  
Neither one of us was in a rush  
Agreeing to wait, to wait  
But now I feel my patience running thin  
Anticipating when you tell me the time is now  
Tell me you'll stay, hey

Repeat 1

We're gonna take our time  
Don't hesitate to come inside  
So relax you're mind, everything is alright  
Candlelight and me, just for a while  
We're gonna take it nice and slow  
Hold our bodies steady as we not in hurry  
Until I get you to say that you're so glad you stayed

Repeat 1 till end
