Did ya have a bad day
well sometimes shit go that way
come on let me rub your feet
baby I know just what you need so
move along to your back
or maybe you'd like to take a bath
come on in the water's fine
all you gotta do is ask for

Whatever you want, whatever you need
i'm takin this from A to Z tonight
girl I'll take it nice and slow
it's not about me it's whatever you like
girl i'll try to be your man for life
baby you don't have to go no not tonight

Forget all about the pain
let my fingers take the pain away
lay back, relax your mind
don't think about the time cuz we got all night
don't worry bout a thing
for you i'll do anything, just wanna make it clear
I'm so glad I got your here

Whatever you want, whatever you need
I'm takin this from A to Z tonight
girl I'll take it nice and slow
it's not about me it's whatever you like
girl I'll try to be your man for life
baby you don't have to go

You're the only one that matters, I'll never leave you
just wanna please you, girl you know how much I need
you
baby I swear, don't have to worry
be there for you, I got to have you...in my life

Whatever you want, whatever you need
I'm takin this from A to Z tonight
girl I'll take it nice and slow
it's not about me it's whatever you like

girl I'll try to be your man for life
baby you don't have to go

Whatever you want, whatever you need
I'm takin this from A to Z tonight
girl I'll take it nice and slow
it's not about me it's whatever you like
girl I'll try to be your man for life
baby you don't have to go

Whatever you want, whatever you need
I'm takin this from A to Z tonight
girl I'll take it nice and slow
it's not about me it's whatever you like
girl I'll try to be your man for life
baby you don't have to go
