Bad boy we don't stop
I hit you with sound that the world can't take
Came straight out the gig playing two point eight
Near studded, jewel flooded, got to love it
First rap cat with an R&B budget
Every day on the TV, me and PD
Girls see PD, make their man break the CD
Why ya'll forever rowdy, I'll be outtie
Somewhere in Maui, 'til I go back to Cali
Can't understand how he can treat you
The way that he does
Give me the chance to show you baby,
You're better off with me
Oh so, baby let me try, I wanna make you smile
I wanna love you like you need to be loved
I'll never let you down, I'll always be around
And you should be mine
If he don't love you right, don't waste your time
If he don't treat you like he should, then you should be
mine
Why can't you see you should be happy
And I don't know why
You don't believe a man can love you
For the rest of your life
Oh so, baby let me try, I wanna make you smile
I wanna love you like you need to be loved
I'll never let you down, I'll always be around
And you should be mine
If he don't love you right, don't waste your time
If he don't treat you like he should, then you should be
mine
Why can't you see you should be happy
And I don't know why
You don't believe a man can love you
For the rest of your life
Oh so, baby let me try, I wanna make you smile
I wanna love you like you need to be loved
I'll never let you down, I'll always be around
And you should be mine
Yo, what's the deal honey, insecure, feel funny
I know you're used to dealing with cats with real money

Also know you like Mase in a lot of ways
But it's hard to go on when you're lonely on the
holidays
When you shop you should shop for two
Take you where the water is aqua blue
Let you fall back, treat you like you're all that
Under umbrellas with your shades and your straw hat
You ain't the one out clubbin' all day and all night
Just to save a fight you say what's right
And I know he ain't the cat that will stay in your life
Even though he gave you ice now make him your wife
How a man deserve you if he hurt you
How you give a woman 25 a curfew, between me and
you
You ain't heard that from me
'Cause me ain't the player with the PHD
Girl, come into my world
I'll love you the way that you need to be loved
no worries no more girl open the door and
don't waste your time
You should be mine
If he don't love you right, don't waste your time
If he don't treat you like he should, then you should be
mine
Why can't you see you should be happy
And I don't know why
You don't believe a man can love you
For the rest of your life
Oh so, baby let me try, I wanna make you smile
I wanna love you like you need to be loved
I'll never let you down, I'll always be around
And you should be mine
