Cop tells the principal he's only making noise
Cut the kid some slack he's an excitable boy

I've been a renegade since the day I was born
I get a little carried away
Never meant to do nobody no harm
I gotta rock it, I can't stop it, I ain't about to change

Parking with my darling, fogging up the glass
Slipping cross the truck seat tryin' to make a pass
My baby said stop, we gotta take it slow
You know me I'm always raring to go

It's the way I am I don't have no choice
What can I say, I'm an excitable boy

I've been a renegade since the day I was born
I get a little carried away
Never meant to do nobody no harm
I gotta rock it, I can't stop it, I ain't about to change

What can I say I'm an excitable boy
What can I say I'm an excitable boy

Ah, you know I just can't help myself
It's just the way I am
