### "Man I Was"

Look at me in that photograph before we were ever us  
Long before you found someone else and broke our  
sacred trust  
I hardly recognize myself sure has been a while  
Amazing how much my life has changed since I've  
worn that smile  
What happened to that smile  
There I am with my head held high my step was quick  
and my eyes were bright  
Back when I believed in love and would lay my heart on  
the line  
I don't know which hurts the worst losing you or having  
to see  
The picture of the man I was before the fool you made  
of me

I've wasted time here missing you doubting who I am  
I can't make you something you're not but I can be me  
again  
Oh deep down I know I can  
There I am with my head held high...  
I want to be the man I was before the fool you made of  
me
