sign away all of my decisions
choke me when i breathe
too many opinions
i gave away my freedom to please you
let them talk so they feel important
they don't mean a thing, this is my own dream
why do you have to put this on me
where will we go
i'm a mess
do what you wanna do
when the fuck you want to do it
try hard to live your life now
live life the way that you want
life's a game, so don't complain
you can't obtain, figure out
how to mantain, it's a shame
make a change so life will never ever bind me down
found out just what it's really all about
never doubt, i wish i could get out
why do you have to put this on me
where will we go
i'm a mess
do what you want to do
when the fuck you want to do it
try hard to live your life
live life the way that you want
do what you want to do
when the fuck you want to do it
try hard to live your life
live life the way that you want
where will we go
i'm a mess
