[Intro]

The strangest, straight derangest, start it J, start it J  
Uh, MidWest Side, IIDQ found laughin

[Verse 1]

Lets get it on, raps new phenomenon  
Hitt'em up with the flips  
Rupture your dome  
Calm down, you say me song sound like Butch?  
You say I'm washed up? Nigga what!?  
This is when I kick it with this rhythm-simplistic  
Fuck dem 9 rhymes, make them go blind every time  
On that cannabis, edist, not for a weak mind  
But the mind of a gauge  
On stage cuzz minimum wage has me on maximum  
rage  
Page mac, lets scrap, the conniseur of rap  
See me, come tight like a pig in a bikini  
Please! All emcees know I be on my Q's and P's  
Even Run-D.M.C. is on a deadly disease  
High voltage, take a look at the psychosis  
Deranged, I claim, let me explain  
Fatrocious, flows be cocked from KC to Wisconsin  
My killer flow makes me jerk my Johnson

[Verse 2]

Mushroom headed keeps me pathetic,  
But the ?  
Treating life like I'm moving bombay  
Brother with the ganja stickin it  
Gonna stick it if you let it  
Come here, no come?  
I'll run dancing  
Just call me the strangest, straight G, bombay  
Distinguish the fuck of shit  
From hip-hop comes this  
Apocoflips got control of your hips  
Its venomous, how the rap metamorphasis  
MC corpsesis around me  
They found me jacuzzin with my sorcerists  
Fire up the paper & get blowed

Then roll to a spot with bianca  
Then bust holes in these hoes  
Cuzz they wanna kill me like they killed Bruce Lee  
On the set, no shit  
Told my bianca thats what she gets  
Middle West flex flows, mics to sex those  
Middle West flesh holes, insane games  
Never that plane Jane

[Verse 3]

I give myself a C-section  
With a rusty jagged weapon  
Bungee wit 100 feet of slack  
IN front of my kids with no discretion  
Strange days like Julia Lewis and Angela Bassett in a  
casket  
Trippin with the 9  
Get your brain blown like a head gasket  
Missouri is in the house for the '99 shot  
Futuristic ladies love me a whole whole lot  
When demons try to do me too  
They know they wicked  
So I bust if you aint down with IIIDQ  
Who are you!?!  
Neena Tech, respect, MidWest Side  
For life, grab a mic, and flip it like a dyke  
The soundlab got my microchip screwed  
Mounfunction, ?, now I'm cool  
Pain givers, slang spitters, hang niggas, insane triggas  
no shame, aim triggas, brain splitters, game quitters?  
NO!  
Grey liver niggas, narcotical strange nigga!
