Song: Third Eye Blind

When we met, light was shed
Thoughts free flow
You said you've got something
Deep inside of you

A wind chime voice sound
Sway of your hips round rings true
It goes deep inside of you

These secret garden beams
Changed my life, so it seems
A fall breeze blows outside
I don't break stride, my thoughts are warm
And they go deep inside of you
Oh yeah

And I never felt alone, alright
Oh oh, till I met you

Friends say I've changed
I don't listen 'cuz I live to be
Deep inside of you

Slide of her dress
Shouts in darkness, I'm so alive
I'm deep inside of you

You said, "boy make girl feel good"
But still, deep inside
Still

I've never felt alone
Till I met you
I'm alright on my own
And then I met you
And I'd know what to do
If I just knew what's coming

I would change myself if I could

I'd walk with my people if I could find them
And I'd say that I'm sorry to you
I'm sorry to you

And I don't want to call you
But then I want to call you
'Cuz I don't want to crush you
But I feel like crushing you, and it's true
I took for granted you were with me
I breathe by your looks and you look right through me

But we were broke and didn't know
We were broke and didn't know
We were broke and didn't know
We were broke and didn't know

Something's gone, you withdraw
And I'm not strong like before
I was deep inside of you

I can go nowhere
I burn candles and stare
At a ghost deep inside of you

And some great need in me
Starts to bleed
I've lost myself, there's nothing left
It's all gone
Deep inside of you
Deep inside of you
Deep inside of you
