Lady of my dreams, lying next to me

I think we are in love

Smiling face, warm embrace

I think we are in love.

Love shines forever and lives among the Stars;

And here we are together in each other's arms;

You touch my hand, you understand,

I think we are in love

Love shines forever and lives among the Stars

And here we are together in each other's arms----

Lady of my life, lying by my side

I think we are in love

You touch my hand, you understand

I think we are in love.

Yes, I think we are in love !
