"Light Of My Life"

Here, there, now and then
With the lines of my pen
I'll thank you again

I want to ignite
Everyday your life
Like you do it with mine

You give meaning to my life

Let me look into your eyes
Now and for many lives
Lift me up to the skies

You give meaning to my life
You give meaning to my life

Light of my eyes
Light of my eyes
You're the light of my life

Here, there, now and then
With the lines of my pen
I'll thank you again
