"No Longer Here"

Visit "[No Longer Here](#)" on MotoLyrics.com

You got to leave this place
To enter to a maze
You'll be part of a myth
Part of the labyrinth

You got to believe in what they say
You got to believe in what they say

You're no longer a must
You've turned to dust
You're no longer a lust
You've turned into a lost
You're no longer here
You've turned into fear

You got to believe in what they say
You got to believe in what they say
You got to believe in what they say

All your hopes and fears
Are no longer here
The laughter and tears
Are no longer here

You got to believe in what they say
You got to believe in what they say
