I want to tell you something
Something that you don't know
I want to tell you something
I want to tell you now

You and I make one
You and I make one

I want to tell you something
Something that you ignore
I want to tell you something
Something that you can't ignore

You and I make one
You and I make one

You and me
You and me
You and me
You and me

I want to tell you something
Something that you don't know
I want to tell you something
I want to tell you now

I want to tell you something
Something that you can't ignore
I want to tell you something
You're the girl that I adore

I love your love
I love your love
