"The Mouth Shutter"

You won't turn off the light
You won't win the light
With an irrational foresight

I don't mind to hear you laugh
You won't make it tough
You haven't seen enough

I'll move along
I'll move along

You can go backwards
You can go forwards
You'll still choke with your words

You'll go against the river
You can't make it easier
It's part of the thriller

I'll move along
I'll move along

I'll move along
I'll move along
Keep me strong

I'll move along
I'll move along
Keep me strong
