I'm a hot dog sitting in the fog  
Waiting for my day in the sun  
And I'm all alone  
Far away from home  
Just me and my mustard and my bun

And oh  
I miss you but time is on my side  
And oh  
I need you but you and onions make me cry

And I'm all beef but I have a heart  
And it's bleeding now that you've gone away  
And I wish everything was kosher as me  
But I'm not healthy for you anyway

And oh  
I miss you but time is on my side  
And oh  
I need you but you and onions make me cry
