(Mason)

Don't be sad, I just want to see you get through  
All I have, it's yours if you think it helps you  
Good or bad, there's no one can really judge you  
You just have to come to your own conclusion  
There is only one who means more than all to me  
And through the lady, in a dream I've learned to live  
with everyone  
Mother, father, all my friends, have seen me have my  
day  
But now I see that there's no need in trying to run,  
though it's been fun
