(Winwood/Capaldi)

Pretty Polly Possum what's wrong with you?  
Your body's kind a weak  
And you think there's nothing we can do  
Good Golly Polly shame on you  
Cause Molly made a stew that'll make a newer girl out  
of you

So follow me, it's good for you  
That good old fashioned Medicated Goo  
Ooo, aint' it good for you?  
My own homegrown recipe'll see you thru

Freaky Freddy Frolic had some, I know  
He was last seem picking green flowers in a field of  
snow  
Get ready Freddy, they're sure to grow  
Mother nature just blew it  
And there's nothing really to it I know

Aunty Franny Prickett and Uncle Lou  
They made some Goo  
Now they really sock it to their friends  
Frantic friends and neighbors charge the door  
They caught a little whiff  
Now they're digging it and seeking more
