That's for real [x8]

[Verse 1:]

Another day drama got me going through it eyes  
fighting me to open  
Dreaming the way the struggle knowing everything is  
broken  
Pain sweat and tears let me soaking  
Now I'm feeling like I'm losing on some shit that got me  
contemplating  
Smoking  
Inhaling off the light looking at these haters like I owe  
em  
Pressing something like a bomb ten seconds from  
try'na blow em  
Never turn another cheek, pride goin make a nigga  
show em  
Niggas got something to say now it's fuck em like I  
don't know em  
All I ever tried to do was make a way for me and grind  
It ain't been anything less for a decent amount of time  
Extra time to searching for a position they couldn't find  
They disregard being loyal like it's something they left  
behind  
Homie you goin do your thang I'm goin do mine  
Keep ya rather distance for the shit I'm packing two  
crimes  
Niggas say it was love but now I see the love they had  
lay in a hersh  
It safe to say they love for hate focus to see me doing  
worse

[Chorus:]

When hard times seem to find you (that's for real)  
When niggas find yourself behind you (that's for real)  
When in the days barely find you (that's for real)  
And all you know is how to make it through (that's for  
real)  
If you broke shit straight then ya making love money  
Errbody wanna say they ain't changed  
But every motherfucker thank every other

motherfucker  
Goin knock em I think position in the game

[Verse 2:]

I hate to say to believing in niggas got me disappointed  
more than ever  
How the fuck they something real knowing they lie  
about whatever  
They do know about loyalty all they know about is  
cheddar  
All they hate was tuck away till they thought I was doing  
better  
But I still hold it together with no one what I had been  
through  
Everything I'm about enough to show I never been you  
Disrespecting your homie it's something I don't get into  
Being real ain't nothing practice in something already  
in you  
Dawg told me watch at a distance load up and fall back  
Soon as they show they colours expose em and never  
call back  
Never forget the way that they done ya remember all  
that  
Other than definition of pussy is where they falling  
And if so they playa hide layout  
They know I'm where the streets at, you other niggas  
not me so stay out  
They pray my enemies take out the truth for what I  
spoken  
I see the snakes no longer in the grass they in the open

[Chorus: x2]

When hard times seem to find you (that's for real)  
When niggas find yourself behind you (that's for real)  
When in the days barely find you (that's for real)  
And all you know is how to make it through (that's for  
real)  
If you broke shit straight then ya making love money  
Errbody wanna say they ain't changed  
But every motherfucker thank every other  
motherfucker  
Goin knock em I think position in the game

Is it real? [x7]
