Spent so many years on the verge of giving up

wondering if the steps I took

would ever lead me far enough

but He's helped me to realize

I'm further than I once was

I just keep saying out loud

I'm getting Closer

closer to you Lord

I haven't seen You

but I know I know you more

I keep on walking

still have miles to go

but as I look back on my long and narrow road

I'm getting- Closer

I've been stumbling through the dark

feeling my way around

tryin' to be that light

that I've heard so much about

though I see just dimly

Your light is always leading

I'll follow all the way home

Chorus

Heaven help me!

ya know I need it

the hardest days they move so slowly

be my courage and my comfort

and give me faith to see

give me faith to see

give me faith to see

I'm getting Closer

I said I keep on walking

still have miles to go

but as I look back on my long and narrow road

I'm getting- Closer
