

3lb Thrills "Something Will Come"

Visit "[Something Will Come](#)" on MotoLyrics.com

When you travel back in time
Do you frame it in your mind
When she's sleeping, is she small
Is she anything at all

Something will come
Something was done
Something will come to you

When you see her on the town
All her friends standing around
Does she tremble does she sweat
When she smokes her cigarette

Something will come
Something was done
Something will come to you
And it'll come crawling back to you
When you try to go to sleep at night
It will come crawling back
On its hands and its knees

When you travel back in time
Do you frame it in your mind
And when you pin her elbows down
Does she float or does she drown

Something will come
Something was done
Something will come to you
