Weekends come and weekends pass but what do you care?
I would have made my moves but now I'm just too scared
That what's in the past will ban everything that we like to do

Weekends come and weekends pass way too fast
To see you in a crowd for now is all I can ask
Why would I try to write the rules when you are the host?
It's a natural selection you will keep the one you need the most

Weekends come and weekends pass but what do you care?
Weekdays last for ages when I know you're not there
Because of all the stupid things I've done you had to leave
