Trying to vent the feelings inside my head is  
impossible for me to do tonight  
So I just keep you near caress you 'til my flight is here  
But when I tried to keep you awake you fell asleep at  
the airport of Nice

I take it as an easy way of leaving you  
So I won't have to say the dreadful goodbyes  
But when I reach the gate I feel a sudden change of  
heart  
So I'll pass the flight and buy us a bottle of wine  
I'll buy myself some more time

Don't stay awake  
I guess there will be some delay  
I'll be at least two days too late  
Now I know that France is too far away

Though the time we shared was better than anything  
We can't ignore the fact it's all we'll ever have  
So I kiss you like I've never kissed you before  
And It's time for us to finally realise that we must move  
on with our lives

Don't stay awake I guess there will be some delay...

It's something that you said  
It's something that you did  
That's still a vital part of me today  
It's definitely something that you said  
It's something that you did  
That's still a vital part of me today

It was years ago but I still can't help wondering  
What could have been in case I would have stayed  
You're still far away but I will never forget the day  
When I tried to keep you awake and you fell asleep at  
the airport of Nice
