Ride on the swing in and out of the bars  
Capturing moments of life in a jar  
Playing with children, acting as stars  
Guiding your visions to Heaven and Heaven is in your  
mind

Take extra care not to lose what you need  
Apple you're eating is simple and real  
So water the flowers that grow at you heel  
Guiding your visions to Heaven and Heaven is in your  
mind
