When the audience don't come to you  
You'll have to go where the audience is  
And now I'm singing just karaoke songs

And all these people came here to see me perform a  
little karaoke song

I pay to let them see the star is born

And this is my karaoke song

A pretty boy with his glasses on  
Is melting every heart with Orbison  
An obvious choice for a karaoke song  
So I continue my one town tour  
Two blocks down to the next venue  
And I will be the most admired boy  
And all these people came here to see me perform a  
little karaoke song

But when you try to sing along...
