"Light Up Or Leave Me Alone"

Visit "[Light Up Or Leave Me Alone](#)" on MotoLyrics.com

Sometimes I feel like I'm fading away
You're looking at me, I've got nothing to say
Don't make me angry with the games that you play

Either light up or leave me alone

Walk in my room, you lie on my bed
Open your mouth, shoot someone dead
All of a sudden you're inside my head

Either light up or leave me alone

Spending my bread like it grew on a tree
You're trying to tell me 'bout the birds and the bees
The skirt that you're wearing is way past your knees

Either light up or leave me alone

You're up all night preaching your mind
Come home in the morning with your latest find
I'm gonna have to lay it to you straight on the line

Either light up or leave me alone
