'Til I find out, where will I go,
where will I go
I don't know, I don't know,

I don't know where
The space is between my eyes
Open up the heavenly skies
Death awaits at the pearly gates
For those who've been mesmerized
Many years has come and gone

Went to see a standing stone
Some in circles, some alone
Ancient, worn and weather torn
They chill me to the very bone

Many of these can be seen
In quiet places, fields of green
Of hedgerow lanes with countless names
But the only thing that remains
Are the roll right stones

- Chorus

Space age before my eyes
Opening up the skies
Devil waits at the pearly gates
For those who have been mesmerized

Many a years has come and gone
But progress marches slowly on
In nature's paint, she hides the stain
'Cuz everybody is going insane
The only, the only thing
That will sustain are the roll right stones

Roll Right Stones (7X)
(Musical Interlude)"

- Chorus

'Til I find out, where will I go,
Where will I go
I don't know, I don't know,
I don't know where
The space is between my eyes

Open up the heavenly skies
Death awaits at the pearly gates
For those who've been mesmerized
Many years has come and gone

Went to see an ancient mound
People buried underground
Long ago, will never know
What it was like to hear their sounds
Black crow, I know you've been here
You've see the sights of yesteryear
You steal the grain of the conquered plain
But the only thing that remains
Are the roll right stones

Repeat-Chorus (2X)
