### "Three Star Hotel"

I'm waking in a hotel room feels like I'm tied up to this bed  
I'm trying to recall what I did right before I fainted and where  
I was wasted enough to forget the whole night  
I'm feeling kinda weird but it feels alright  
I don't see anyone but I was with someone and now she's gone  
Didn't leave any leads she was really good at covering her marks professional  
I really think that my future wife  
Is someone who just walked out of my life  
How can I reach her I ain't got her number will I ever find her

Now I know who she is  
But I forgot her name, yeah, and I forgot her face  
I don't know where she lives  
And I forgot her name yeah and I forgot her face

The only thing that I can do is hang around and wait here for you and play snake two  
It would be easy to go out in the night and find some relief  
I think I'm gonna anyway stay inside  
And save my lines for the one who's mine  
Yeah she will be I will not take no for an answer once I find her  
I believe that she's the one for me

I believe it I believe it  
Anyway I believe it I believe  
I know it's true yeah I believe it I believe it  
Anyway I believe it I believe it

I'm dead sure you changed my life that night  
I totally lost track of the time  
If I ever get another chance I'm not gonna let that moment pass

'Cause I'm too high I forgot your name yeah

And I forgot your face  
If only you could call me  
I forgot your name yeah  
And I forgot your face and I'm still here where you left  
me that day
