i dont know what is going on
you turn around and touch my heart
a silent moment speaks the truth
something has happened all at once
it should have scared me in advance
but i was falling in those eyes of yours

and so
fear was gone
i knew there was nothing else
i'd ever want

chorus
i know
you're not from here
i've waited for you to appear
to take my breath away
and make me weep
you're not from here
not from this here and now
just a touch of yours
and i fly... and i fly... and i fly

i cant get used to missing you
if this is how it's gotta be
i need an angel to watch over me
no one can hold the hands of time
but i can hold you in my mind
over and over like a melody

for now
i'll stand still
for now
i'll be filled by the memory of your skin
i know you
you're not from here
you dont belong to lies and tears
the greatness of your soul
makes me weep
you're not from here
not from this here and now

just a touch of yours
and i fly... and i fly.... and i fly...
chorus
